Objective

Seeking a part time job or internship for fall 2018 and spring 2019

Education

Michigan State University - East Lansing, MI

B.S. in Computer Science

GPA: 3.44

Minor in Entrepreneurship and Innovation

Sept 2016 - May 2020

Boston College High School - Boston, MA

Diploma

GPA: 3.43

Sept 2012 - May 2016

Experience

Software Development Intern at 2Is inc. - Walpole, MA

- Wrote back-end code using Common Lisp
- Made installers for the 2Is Analytic Platform using Inno Setup and Pascal
- Did QA on many projects by rewriting and creating new unit tests in Common Lisp
- Wrote Lisp and Microsoft SQL to setup a SQL server for data analytics
- Setup and made a demo for a web templating engine, mustache with Common Lisp

May 2018 - Aug 2018

Front End Development Intern at Getfused - Boston, MA

- I helped build sites for Wynn Casino, and other small local businesses
- I wrapped sites using CSS, HTML, and JavaScript
- Styled pages to be fully responsive (i.e. desktop, tablet, mobile, and print version)
- Made small design decisions when styling something that is not designed in the comps

May 2017 - Aug 2017

Rowing Instructor at Row and Ride - Hanover, MA

- Taught lessons and led classes in workouts on Concept 2 Rowing machines
- Gained leadership skills by planning and leading all of my own classes

Jan 2014 - Aug 2015

Technical Skills

- Proficient in Python, Java, CSS, HTML, Common Lisp, C, C++, and basic Arm assembly language
- My computer science course work has consisted of Data Structures and Algorithms, Computer Organization and architecture, Discrete Structures, and Intro to Programming I and II

Projects

- In my data structures and algorithms class I made many python implementations of simple data structures and algorithms (CSE_331 on my GitHub)
- I made a python module for re-naming and re-dating image files for family photos
- I have made a Caesar Cypher, Password Cracker, and Baker's Game using Python
- I have made many websites on my own as a Web developer using CSS, PHP, and Javascript
- Created programs such as the Snake game, Hangman, an AI chatbot, and an adaptation of MS Paint using Java
